Lifting Serum

Immediate lift effect combined with long-term peptide skin-boosting effect. Lifts skin’s appearance for long-lasting, younger-looking skin. Recommended for the appearance of sagging skin, expression lines and fine wrinkles.

RESULT

The skin appears lifted, replenished and feels revitalized.

ACTIVE INGREDIENTS

A unique combination of high performance actives and energizers to help restore and hydrate skin.

5% Lifting Peptides Complex

Stimulates the epidermal synthesis for a visible anti-wrinkle and lifting effect. Prevents the appearance of future signs of skin aging and increases skin elasticity.

4% Tensing Complex

Immediate tensing agent which provides an instant lifting effect.

0.5% Bakuchiol

Repairs and protects damaged and dry skin. Retinol-like agent which also stimulates the renewal of skin cells and collagen production.

1% Ceramides, Panthenol, Allantoin and Mineral Cocktail

Hydrating and nourishing actives which reinforce the skin barrier and intensely hydrate skin.

30ml
Paraben and fragrance free

Up to
124% increase in skin hydration*

38% increase in skin elasticity*

26% increase in skin firmness*

DAY 0

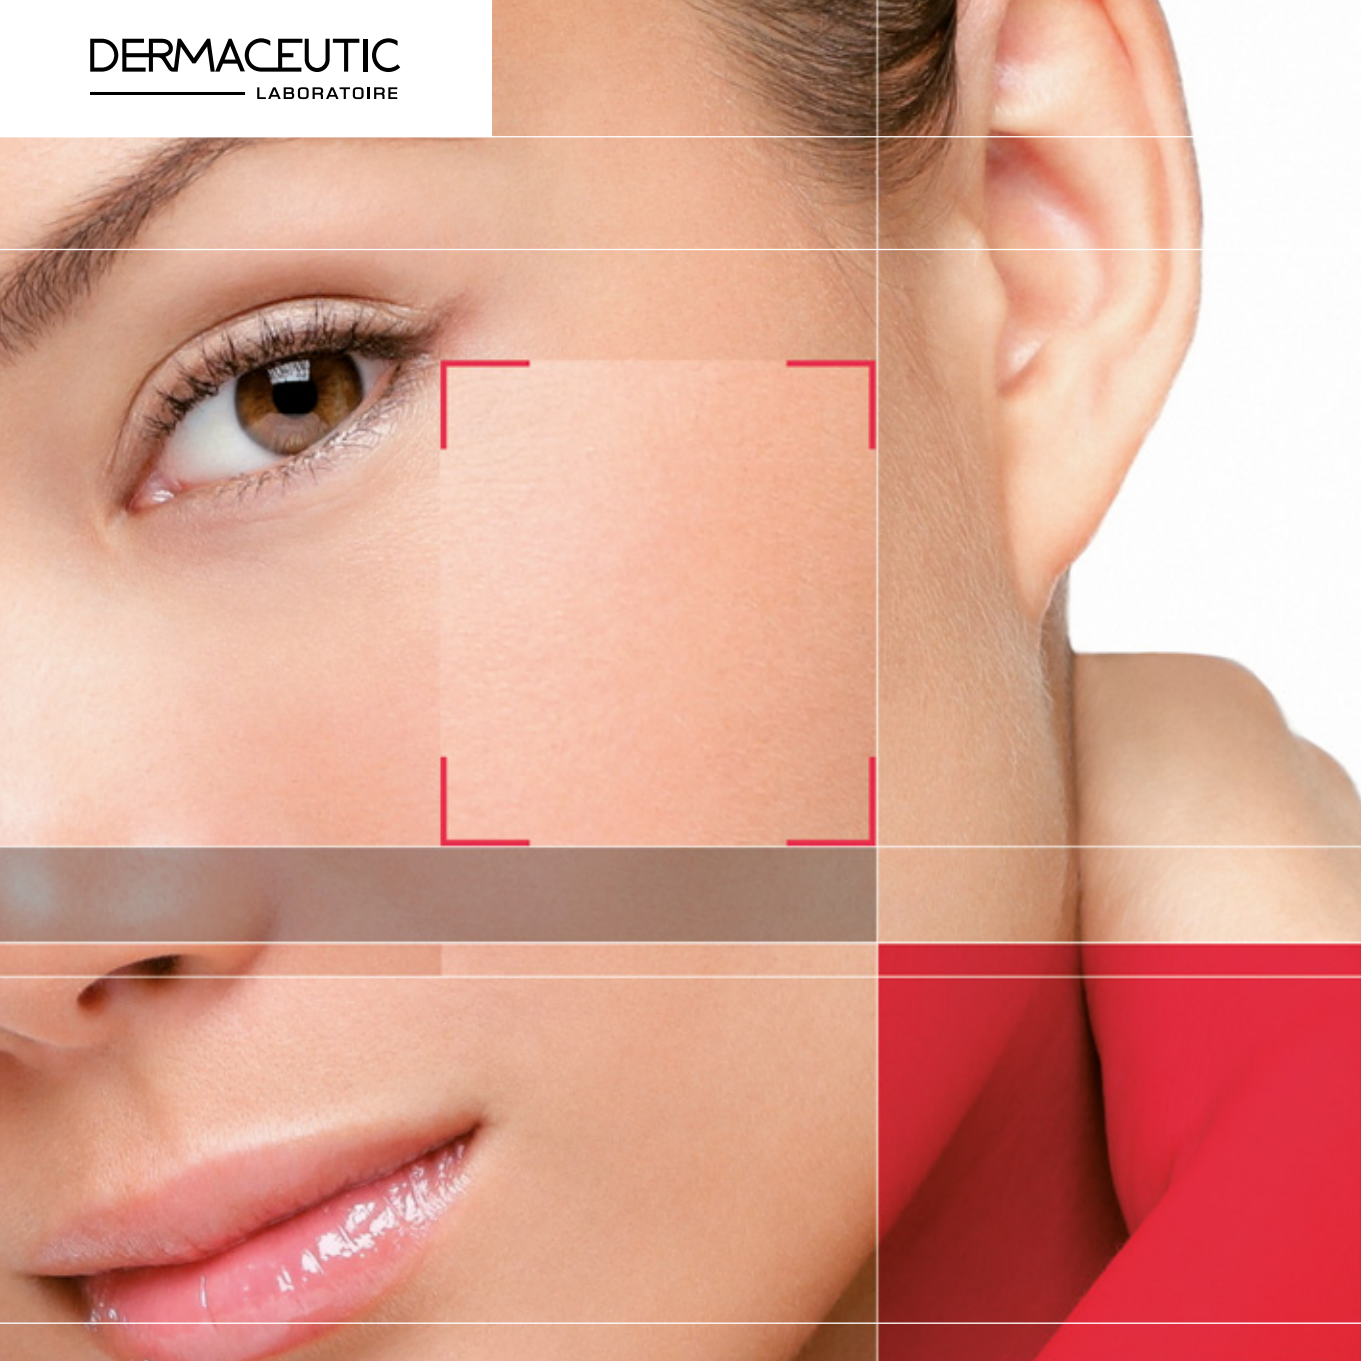

DAY 28

Reduced fine lines and wrinkle volume

Firmer and more supple skin

Results after 28 days: The skin is younger-looking and the appearance of fine lines and wrinkles is reduced.

Yellow Cream SKIN TONE BRIGHTENER

Expert Skin Toning Cream

Stimulates and promotes skin radiance and harmonizes complexion. Reduces the appearance of pigment spots and uneven skin tone.

RESULT

Pigment spots are less visible and overall complexion is harmonized.

ACTIVE INGREDIENTS

A unique formula which gently exfoliates the skin and reduces the appearance of pigment spots.

Kojic Acid

Inhibits the production of melanin and is therefore a proven, effective treatment for melasma.

Alpha-Arbutin

Inhibits cells' production of melanin by blocking the action of tyrosinase. It is also an antioxidant.

Licorice

Inhibits the action of two tyrosinases, which catalyse the production of melanin. It also has soothing properties.

Morus Alba

Antioxidant which also limits the production of melanin by inhibiting the action of the tyrosinase.

Glycolic and Salicylic Acid

Speed up exfoliation and destroy lipids that bind the outer cells of the epidermis, to help promote cell renewal.

15ml

Mela Cream

PIGMENTATION
CREAM

86% of patients trust
the product performance*

Pigmentation Cream

Minimizes the appearance of pigment spots, harmonizes complexion and promotes an even skin tone.

RESULT

Helps reduce the appearance of pigment spots
and decreases melanin content.

ACTIVE INGREDIENTS

Kojic Acid, Arbutin and Licorice Extract

Inhibit the production of melanin by blocking the action of tyrosinase.

Niacinamide

Helps lighten skin and improve elasticity.

Retinol

Stimulates the renewal of skin cells and regulates the migration and transformation of keratinocytes.

Salicylic Acid

Causes a keratolytic action that reduces intercorneocyte cohesion, and destroys lipids that bind the outer cells of the epidermis.

Phytic Acid

Lightening and antioxidant agent.

Mandelic Acid

Is known to diminish the appearance of fine lines by acting as a humectant and its exfoliating action breaks the bond between dead skin cells.
