

DERMACEUTIC

LABORATOIRE

EXPERT
COSMECEUTICALS

TO OPTIMIZE RESULTS OF
AESTHETIC PROCEDURES

Dermaceutic Laboratoire is the partner of choice for over 30,000 aesthetic dermatology specialists throughout the world.

The company's goal is to support practitioners in maximizing in-clinic treatment value and increasing patients' value perception, by offering high performance cosmeceuticals which accompany and optimize results of all aesthetic treatments (peels, laser, botox, mesotherapy...).

The efficacy of Dermaceutic's cosmeceuticals is supported by extensive clinical trials and the company's collaboration with industry-leading practitioners from around the globe.

One of the first laboratories to develop cosmeceuticals using ingredients such as Hyaluronic Acid, Vitamin C Complex, Retinol and Glycolic Acid (now standard ingredients in skincare), Dermaceutic has led the cosmeceutical industry in the discovery of effective combinations of optimally-concentrated ingredients for use in aesthetic dermatology.

Dermaceutic's high-performance paraben- and fragrance-free products are expertly formulated based on professional and patient needs, using the latest ingredients which are selected for their optimal skin tolerance properties.
